Handling Precautions

ineo products are precision instruments and must be handled with care during unpacking and installation. Drives may be damaged by rough handling, shock, or vibration. Be aware of the following precautions when unpacking your ineo external storage kit:

- Do not unpack the product until you are ready to install it.
- Do not drop or jolt the product.
- Do not move the external storage when it is powered up.

Setting Up

You will need a 2.5 inch SATA Hard Disk Drive. Carefully follow the procedure to install the Hard Disk Drive into the enclosure

ineo | I-NA208 Front View

Hard Disk Drive Installation

1. Pull out the USB cable.

2. Loosen four screws from two sides of the bezel.

3. Separate the bezel from the disk mounting tray.

5. Tighten up four screws from two sides of the bezel with the disk mounting tray.

4. Slide 2.5" SATA HDD into SATA connector on disk mounting tray.

6. The external hard disk drive installation process is completed!

Connecting the External Hard Disk Drive

Connecting the Cables

- Connect one end of the USB 2.0 extension Y cable to the USB 2.0 cable at the external Hard Disk Drive.
- Connect the other end of the USB 2.0 extension Y cable to an available USB port on your computer.

Powering Up the Drive as an External Storage System

Power is supplied by USB port. Wait 3 seconds after blue light illuminates.

Windows 2000/2003/XP/Vista

Your operating system will automatically detect the external drive after a "Found New Hardware" message pop up.

Windows 98SE

ineo does not provide any tech supports for Windows 98SE platform since Microsoft has discontinued Windows 98SE.

Mac OS X

Your operating system will automatically detect the external drive. Once formatted the Hard Disk Drive, the Hard Disk Drive icon will appear on the desktop.

Partition & Format the Hard Disk Drive

Startup Computer Management from VISTA

- Right click on Computer and select "Manage" from drop down menu.
- Click on "Continue" button from pop up menu.
- Computer Management is ready for use.

Windows XP/2000/2003/VISTA

- Click the Start button then choose Setting, and click on Control Panel. Double-click the Administrative Tools, and then double-click the Computer Management.
- Click the Disk Management under Storage. Your new Hard Disk Drive should have the right capacity shown. (E.g. figure above Disk 1 is showing approximately 160GB). Right click the Disk 1, and choose Initialize Disk.

3. After New Partition Wizard launched, then click Next.

4. On the next page, choose your partition size then click Next.

5. After that, please assign a drive letter for the new Hard Disk Drive, and go to Next.

7. Confirm your setting and click Finish.

9. When the status change to Healthy, your new Hard Disk Drive is ready for use.

Mac OS X

Note: If the warning does not show up, start at step 2.

- A warning window will pop up for new and unformatted Hard Disk Drive. Click Initialize. Skip Step 2 and continue at Step 3.
- Click Go on the desk bar and choose Utilities, click Disk Utility.

6. To format a Hard Disk Drive. Choose the NTFS as File System. Leave the Allocation unit size as default. Assign a name in Volume label. Check the Perform a quick format to reduce format time. Click Next.

8. It would show the status as Formatting.

10. Go to My Computer, your new drive should be listed there and ready for use.

- Under the Disk Utilities, choose the new Hard Disk Drive (1) and click Partition (2). Click Options to choose format other than Mac Extended VV(3) refer to Figure 1. Choose the number of partition you want by clicking on the scroll bar (4). Name the new Hard Disk Drive (5). Choose the Format (6) refer to Figure 2. Define the Size if you want more than one partition or else, leave it as default (7). Make sure the configuration is right and click Partition (8).

Figure 1: Three Options: Choose the partition for your hard disk drive, then click OK.

Figure 2: Six Formats: Choose the format for your Hard Disk Drive.

- Mac OS Extended (Journaled)
- Mac OS Extended
- Mac OS Extended (Case-sensitive, Journaled)
- Mac OS Extended (Case-sensitive)
- MS-DOS File System
- UNIX File System
- Free Space

4. After the partitioning is done, an icon with the Name you assigned should appear on your Desktop. Just double click the icon to access the Hard Disk Drive.
