

I-NA212-J

2.5 Inch HDD JBOD System, Support JBOD/ Single mode, One Touch Backup

Overview

Ineo I-NA212-J series is an intelligent Plug-and-Play high speed USB 2.0 external storage device with JBOD (Just a Bunch of Disks) function. The external device has been designed to backup and protect important PC data through one touch backup function. Once the OTB function is well setup, the only thing user has to do is touch OTB button from front panel to process backup data from PC to external storage. Also, the screw-less design is the most convenient way for user to install hard disk drive.
